San Luis Obispo, Calif.	14247	38.46	24.15	5.26	.07	.21	0	0	.21	526	June 28
(a) The venereal rate for Fort Douglas is the result of a routine inspection of a group of troops temporarily stopping over enroute to Sunset Air Base, Wash. Fort Douglas itself reports no cases.											
Total Strength	1031638	15.63	12.37	2.72	.08	.01	.07	.12	.58	28671	

~~812.76    643.24    145.60    .52    3.64    6.24~~

\*This summary is incomplete in that reports from all stations are not included. Only larger stations, or stations representative of a geographical area are included. Fluctuations in strength at some stations, or in some areas may be the result of not having received all of the reports from those stations or areas at the time this summary is published.

\*\*The strength of stations so marked is either increased because of being the base of maneuvers in that area or is decreased because part of command is absent on maneuvers.

NOTE: 1 case of meningococcic meningitis was reported from Camp Forrest, Tenn., during the week of June 28.

3 cases of meningitis (nonspecific) were reported from Fort Devens, Mass., during the week of June 21.
